Ollin Dual.

# Ollin Dual Bar.

## Specifications

The Ollin Dual Bar mount can be attached to the main arm, improving user productivity. And because there's no need to provide a separate arm for each screen, expenditure is kept to a minimum while productivity increases.

### Features

- Mounts directly to Ollin monitor arms by replacing standard tilt head
- Mounts monitor sizes 17" to 27"
- Tilt adjustment of monitors via central adjuster knob, range of +25°/-1°
- Fine height adjuster for aligning of adjacent monitors
- Can be readily fitted to existing Ollin arms to upgrade from single to dual
- Handle accessory available
- Available in black only

### Reach\* (mm)

Forward Adjustment: 751  
Vertical Adjustment: 367

*\*Once fitted to an Ollin Arm*

0-8kg Weight Capacity  
(Up to 4kg per monitor)

**Lead Time: 4 - 6 Weeks**
