NOVA & VIVA

Above & Below Desk Power Rail Series

CMS Nova and Viva began as a blank sheet design, a passion project to re-invent personal access to power and technology above and below the desk.

Nova & Viva starts with a one-piece moulded design, with complimentary finishing touches including deep perspex gloss and textured-matte finished fascias, and versatile styling for the body, including optional soft-touch fabric to present even more options to deliver contrast or concealment within the application space.
