DIFFRIENT SMART

DIFFRIENT SMART

*Designed
by Niels Diffrient*

Recognised as the father of ergonomics, legendary designer Niels Diffrient focused on the human experience to inspire innovative products. He revolutionised task seating by inventing a chair that adjusts to the sitter, rather than making the sitter adjust to the chair.

The Diffrient Smart is a cutting-edge mesh task chair that blends intelligence with a sleek, linear aesthetic, seamlessly complementing any workspace. Engineered to offer automatic lumbar support, simplicity, and ease of use, the Diffrient Smart Chair delivers a trifecta of comfort, style, and adaptability.

The Humanscale Design Studio, based in New York City, abides by the philosophy that good design achieves more with less. Function, simplicity, and longevity, and sustainability are at the core of all our designs. When thinking through the design and manufacturing of each product, we carefully consider the materials and resources used, in aim of creating an overall Net Positive impact.

Uncompromising performance-centric design in its purest form is at the heart of every Humanscale solution. Each of our ergonomic products is designed for maximum comfort, a long serviceable life and a minimal environmental footprint. Our simple designs have intuitive features and fewer manual controls, making them easier to use and without sacrificing a stylish aesthetic.

Humanscale®

DIFFRIENT SMART

Designer Niels Diffrient replaced the locks, knobs and levers that are under older generation chairs with your body weight and the laws of physics. It's almost as if it were made for the sitter. This means you can move effortlessly from one position to another.

Ideal task chair for the modern, active workspace.

Diffrient Smart Task Chair

5 | AWM AMAROO

Powered by Humanscale's revolutionary Form-Sensing Mesh Technology and mechanism-free recline, the Diffrient Smart chair provides unparalleled support to every user.

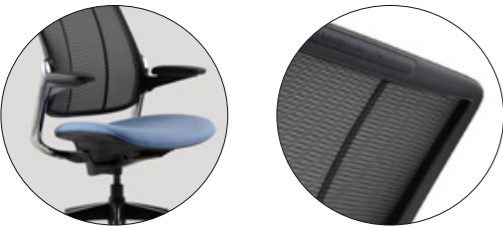

ERGONOMIC FEATURES

A.A

Tailored Seating

Contoured seat cushions that closely follow the body's shape and finished with a waterfall edge to offer long-term comfort, reduce pressure points and provide weight distribution.

Ease Of Use

Innovative weight-sensitive, self-locking recline mechanism with 20 degrees of movement uses each sitter's body weight to perfectly adjust the tension and recline of the chair.

Custom Fit

The Diffrient Smart Chair comes either with or without adjustable armrests, height adjustable lever, and seat depth adjustment.

FEATURES

DIFFRIENT SMART

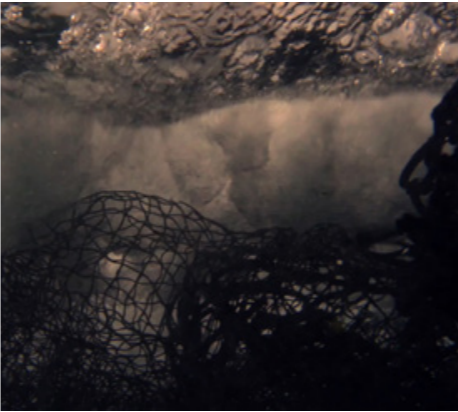

PATENTED FORM SENSING MESH™

Tri-Panel non-stretch Mesh Technology provides perfectly tailored comfort and lumbar support for any posture Unlike traditional single-panel mesh chairs, Form Sensing Mesh takes on the exact shape of the sitter's back, as if it were made for them.

EXPRESS YOURSELF

Choose over 300+ shades to find your perfect colour match.

LIVING PRODUCT CERTIFIED

This means that Diffrient Smart is climate, water and energy positive. Every time we make these products the planet is better off. With a mission to create a healthier world, we are proud that over 60% of our products are certified net positive.

SMART OCEAN

MADE WITH 0.9 KG OF OCEAN PLASTIC

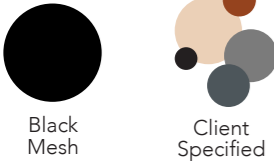

By removing and upcycling harmful fishing nets from the ocean, Humanscale helps restore delicate ecosystems
