

Humanscale®

Diffrient Smart

The Diffrient Smart is engineered to offer automatic lumbar support, simplicity, and ease of use, the Diffrient Smart Chair delivers a trifecta of comfort, style, and adaptability. Powered by Humanscale's revolutionary Form-Sensing Mesh Technology and mechanism-free recline, this chair provides unparalleled support to every user.

Armrest Height

To change the height of the armrests, press and hold the button and slide each armrest up or down. Release the button at the desired height.

Seat Height

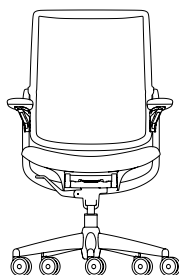

While seated, lift the right hand side paddle to lower the seat. Support your own weight off the seat while lifting the paddle to raise the height.

Seat Depth

Lift up the lever under the forward edge of the seat and slide the seat to the desired position, release the lever to lock the seat.

Recline Tension

Liberty utilises a sophisticated mechanism that automatically adjusts recline tension to match your body weight. To set recline tension, all you have to do is sit.
