

Humanscale[®]

Liberty Task Chair

The Liberty Task chair is an intelligently engineered task chair that provides automatic lumbar support, as well as simplicity and ease of use. Liberty uses Humanscale's Form-Sensing Mesh Technology and spring-free recline for perfect support and unprecedented comfort.

Armrest Height

To change the height of the armrests, press and hold the button and slide each armrest up or down. Release the button at the desired height.

Seat Height

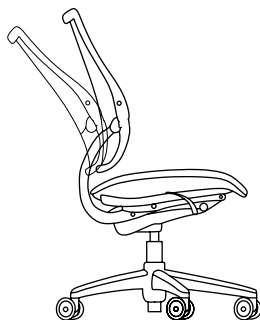

While seated, lift the right hand side paddle to lower the seat. Support your own weight off the seat while lifting the paddle to raise the height.

Seat Depth

Lift up the lever under the forward edge of the seat and slide the seat to the desired position, release the lever to lock the seat.

Recline Tension

Liberty utilises a sophisticated mechanism that automatically adjusts recline tension to match your body weight. To set recline tension, all you have to do is sit.
