

# Humanscale

## Diffrient World

The Diffrient World task chair by Humanscale offers an elegant all-mesh design that seamlessly blends lumbar support with adaptability. Designed by Niels Diffrient, this ergonomic task chair boasts full functionality and complements any modern office environment. With its tri-panel mesh and physics-based design, this chair provides customised back support, making it the perfect choice for those seeking comfort and style.

### Armrest Height

To change the height of the armrests, press and hold the button and slide each armrest up or down. Release the button at the desired height.

### Seat Height

While seated, lift the right hand side paddle to lower the seat. Support your own weight off the seat while lifting the paddle to raise the height.

### Seat Depth

Lift up the lever under the forward edge of the seat and slide the seat to the desired position, release the lever to lock the seat.

### Recline Tension

The World task chair utilises Humanscale's sophisticated mechanism that automatically adjusts recline tension to match your body weight. To set recline tension, all you have to do is sit.
