

# Humanscale Path

The Diffrient Smart is engineered to offer automatic lumbar support, simplicity, and ease of use, the Diffrient Smart Chair delivers a trifecta of comfort, style, and adaptability. Powered by Humanscale's revolutionary Form-Sensing Mesh Technology and mechanism-free recline, this chair provides unparalleled support to every user.

## Armrest Height

Depress button on underside of armrest.  
Reposition armrest to desired height and release.

## Seat Height

Lift up on lever and position chair to a comfortable height, with your thighs parallel to the floor and your feet fully supported by the floor. Release lever.

## Seat Depth

Pull out on lever on the side of the seat to a position such that when you're sitting with your back fully against the backrest, there are 50-100mm of clearance between the front edge of the seat and the back of your knee. Release lever.

## Recline Tension

Path utilises a sophisticated mechanism that automatically adjusts recline tension to match your body weight. To set recline tension, all you have to do is sit.
